DID YOU KNOW?

Liberia's flag is closely based on the **United States flag** — Liberia was founded by freed American slaves in 1822.

Liberia is one of only two countries in Africa that was **never colonised** by a European power.

Unlike the US flag's 50 stars, Liberia has just **one star** — representing the first independent republic in Africa.

The **11 stripes** represent the 11 signatories of the Liberian Declaration of Independence.
