DID YOU KNOW?

The middle of the real flag shows a golden **eagle** standing on a cactus and eating a snake. It comes from an ancient Aztec legend about where to build their city.

The colours have special meanings: **green** for hope, **white** for unity, and **red** for the blood of the nation's heroes.

Mexico gave the world some of its most loved foods — **chocolate, tacos, tomatoes and chillies** all came from here first!

Mexico is home to amazing ancient **pyramids** built by the Maya and Aztec peoples, and to colourful festivals like the Day of the Dead.
