COLOUR GUIDE

1	**Red**	Background — including the little gaps inside the star
2	**Green**	The star's bands — the strips between the outline and the gaps

DID YOU KNOW?

The green star is **Sulayman's seal** — its five points are often said to stand for the five pillars of Islam.

Before 1915 the flag was **plain red** — the star was added so it wouldn't be confused with other flags at sea.

Morocco stretches from the **Sahara desert** to the snowy **Atlas Mountains** — you can ski and ride a camel in the same country!

Red has been the colour of **Moroccan royal dynasties** for hundreds of years.
