1	**Blue**	The four corner panels
2	**White**	The border around the cross
3	**Red**	The cross

DID YOU KNOW?

Iceland has around **130 volcanoes**, and some are still active!

Iceland gets almost **all its electricity** from renewable energy (hot springs and rivers).

The colours are said to stand for Iceland itself: **blue** for the sea and sky, **white** for ice and snow, and **red** for volcanic fire.

You can go **whale watching** in Iceland and see humpback and minke whales.
