COLOUR GUIDE

1	**White**	The background
2	**Copper orange**	The map of the island
3	**Olive green**	The two olive branches

DID YOU KNOW?

Cyprus is one of very few countries with a **map of itself** on its flag.

The island is **copper** coloured because Cyprus was famous for copper in ancient times. The word copper even comes from its name.

The two **olive branches** stand for peace between the Greek and Turkish Cypriot communities.

Cyprus is in the eastern **Mediterranean Sea** and is one of the sunniest places in Europe.
