COLOUR GUIDE

1	**Green**	The background
2	**White**	The writing and the sword

DID YOU KNOW?

The white writing is the **Shahada**, the most important statement in Islam, so the flag is never flown at half-mast.

The flag is made so the writing reads correctly from **both sides**.

The **sword** stands for strength and justice, and green is a traditional colour of Islam.

Saudi Arabia is home to the holy cities of **Mecca and Medina**, which millions of Muslims visit each year.
