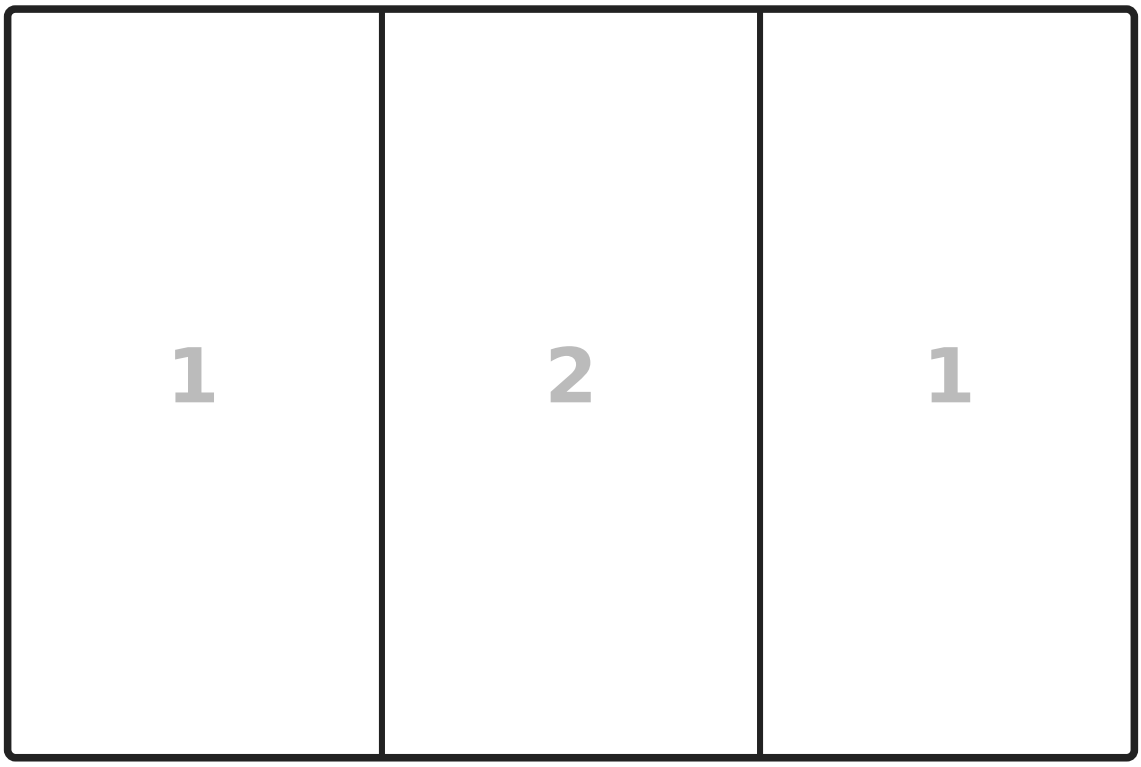
Guatemala Flag Colouring Page

Easy



COLOUR GUIDE

1. **Sky blue** — The left and right stripes
2. **White** — The middle stripe

DID YOU KNOW?

The two **blue** stripes stand for the Pacific Ocean and the Caribbean Sea on either side of the country, and the **white** stripe stands for peace.

This is the plain version of the flag. The government's version has a **coat of arms** with a quetzal — Guatemala's national bird — sitting on a scroll, with crossed rifles and swords and a wreath.

The **quetzal** is a bright green bird with a very long tail. It's so important that Guatemala's money is even called the 'quetzal'.

Guatemala was the heart of the ancient **Maya civilisation**. You can still visit huge stone pyramids they built deep in the rainforest, like the ones at Tikal.
