COLOUR GUIDE

1	**Blue**	The background
2	**Yellow**	The triangle
3	**White**	The stars

DID YOU KNOW?

The stars at the top and bottom are **cut in half on purpose**, to suggest the row of stars goes on forever.

The **three points of the triangle** are said to stand for the country's three main peoples, and it echoes the country's shape on the map.

The blue, yellow and stars were chosen to match the colours of **Europe**. The flag was adopted in 1998.

The **Stari Most** (Old Bridge) in Mostar was first built over 450 years ago. It was rebuilt after the war, and divers still leap from it into the river.
