United States Flag Colouring Page

Tricky

COLOUR GUIDE

1	**Red**	The 7 red stripes, starting with the top and bottom
2	**White**	The 6 stripes in between and the 50 stars
3	**Blue**	The rectangle behind the stars

DID YOU KNOW?

The flag has **50 stars**, one for each US state. The 50-star flag was first flown on 4 July **1960**, after Hawaii became a state.

The **13 stripes** stand for the 13 original colonies that declared independence from Britain in 1776.

There have been **27 versions** of the flag. A star was added each time new states joined, and the 50-star flag has been used the longest.

Apollo astronauts planted **6 American flags** on the Moon between 1969 and 1972.
