COLOUR GUIDE

1	**Red**	Both side bands — and the maple leaf
2	**White**	The middle band around the leaf — leave it white

DID YOU KNOW?

The maple leaf has exactly **11 points** — a stylised design, not a copy of any real maple leaf.

The flag was first raised on **15 February 1965** — Canada still celebrates Flag Day every year on that date.

The white middle section is called the **Canadian pale** — it's twice as wide as each red band.

Canada is the **second-largest country** in the world — only Russia is bigger.
