DID YOU KNOW?

The bird is a **Sisserou parrot**, found only on Dominica. It's the national bird, and Dominica is the only country in the world with a parrot on its flag.

The **ten green stars** around the circle stand for Dominica's ten parishes (the areas the island is divided into).

The three-colour cross stands for the **Christian faith**, and its three colours — yellow, black and white — stand for the island's people, soil and rivers.

Dominica is called the **'Nature Island'**. It's covered in rainforest and has a boiling lake heated by a volcano — the second-largest hot lake in the world.
