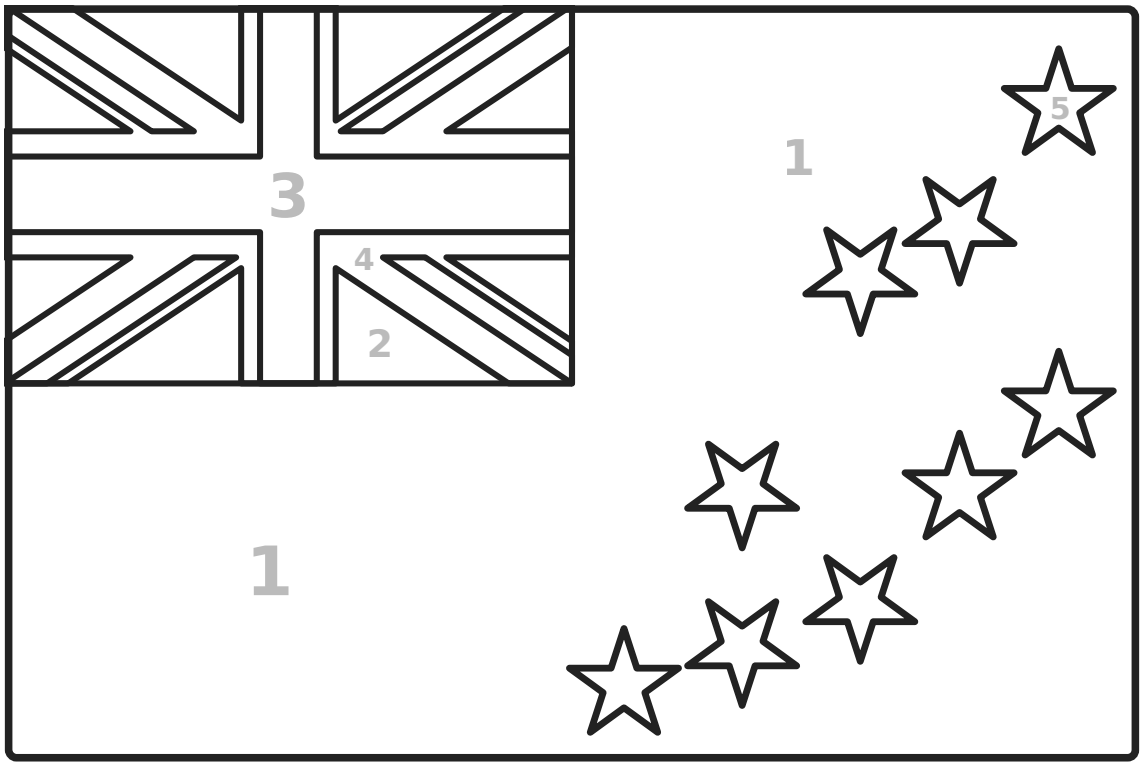
Tuvalu Flag Colouring Page

Tricky



COLOUR GUIDE

1. **Light blue** — The large background — the Pacific Ocean
2. **Dark blue** — The corner sections inside the small flag
3. **Red** — The upright cross and the diagonals in the small flag
4. **White** — The bands around the red crosses
5. **Yellow** — All nine stars

DID YOU KNOW?

The **nine yellow stars** stand for Tuvalu's nine islands — and they're placed to match where the islands really sit in the ocean, so the flag doubles as a little map.

Tuvalu means **"eight standing together"** in Tuvaluan, because only eight of the nine islands were traditionally lived on.

Look carefully at the stars — **they aren't all the same way up**. Some have a point at the top and some have a point at the bottom.

Tuvalu is one of the **lowest-lying countries on Earth** — its highest point is only about 4.6 metres above sea level.
