DID YOU KNOW?

The white **crescent moon** is a symbol of Islam and of Uzbekistan becoming a new independent nation.

The **twelve stars** stand for the twelve months of the year and the twelve constellations of the zodiac.

Light blue honours Timur (Tamerlane), a great Uzbek leader from history, **white** stands for peace, and **green** for nature and fertility. The thin red lines stand for the life force in every living thing.

Uzbekistan is a country in Central Asia famous for its ancient Silk Road cities like Samarkand and Bukhara, filled with beautiful blue-tiled mosques and domes.
