COLOUR GUIDE

1. **Light blue** — The top and bottom bands
2. **White** — The middle band, all around the sun
3. **Gold** — The sun — the middle circle and every one of its rays

DID YOU KNOW?

The sun is the **Sun of May**, named after the May Revolution of 1810 that started Argentina's journey to independence. On the real flag it has a human face.

Count the rays and you'll find **32** — sixteen straight ones and sixteen wavy ones, taking it in turns all the way round.

The flag was created by **Manuel Belgrano in 1812**, and the sun was added six years later in 1818.

Aconcagua, in Argentina, is the highest mountain anywhere outside Asia at nearly 7,000 metres.
