DID YOU KNOW?

Liberia's flag is based on the **United States flag**. Liberia was founded by freed American slaves in the 1820s.

Liberia is one of only two African countries that were **never colonised** by a European power.

The single **star** stands for Liberia as the first independent republic in Africa.

The **11 stripes** stand for the 11 people who signed Liberia's Declaration of Independence in 1847.
