DID YOU KNOW?

In the middle is a golden **eagle** standing on a cactus and eating a snake. It comes from an ancient Aztec legend: the gods told the Aztecs to build their city where they saw this sight.

The Aztecs built their city, **Tenochtitlan**, on a lake where they saw the eagle. Today it is Mexico City, the capital, one of the biggest cities in the world.

The colours have special meanings: **green** for hope, **white** for unity, and **red** for the blood of the nation's heroes.

Mexico gave the world some of its most loved foods: **chocolate, tomatoes, chillies and corn** were first grown here!
