1	**Sky blue**	The background
2	**Gold**	The sun, the eagle and the pattern

DID YOU KNOW?

The golden **sun** has 32 rays, standing for a bright future. Below it flies a **steppe eagle**, a symbol of freedom.

The sky blue stands for the **open skies** over Kazakhstan and for peace.

The pattern down the left is a **traditional Kazakh design**. Kazakh nomads once roamed the grasslands, called the steppe.

Kazakhstan is the **largest landlocked country** in the world, and spaceships launch from Baikonur there!
