DID YOU KNOW?

Ethiopia's green, yellow and red inspired flags all across the continent — they're known as the **Pan-African colours**.

The star stands for **unity and a bright future**, the rays for prosperity, and blue for peace — the emblem was added in 1996.

Coffee was discovered in Ethiopia — legend says a goat herder noticed his goats dancing after eating coffee berries!

Ethiopia is **Africa's oldest independent country** — it was never colonised.
